Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative argued that Warashina does not read on all the claimed invention and is actually using different method of making the color filter than claimed such as Warashina using sputtering method instead of bonding method as claimed. Applicant's representative also argued that examiners' position regarding the obviousness was not clear and not supported by any reference. It was notified to applicant's representative that the examiner will further look into the reference and the statement regarding the "common and known in the art" to further analyze the claimed invention. .
